# The Right Donor, Right Now

## Rethinking Prospecting Strategy

April 21, 2026

StratusLIVE

# Speakers

John Funari
Founder and CTO

Lori Combs
Director of Solution Engineering

# Agenda

- Review of prospecting tools currently available
- Review of AI agent prototypes

1

# What's available now?

What features can I already use to help with prospecting in StratusLIVE 365?

# Constituent Engagement Data

## Participations

All the ways a constituent is affiliated with your organization

## Engagement

Interests and engagement scores as well as details on volunteer and event participation, committees, etc.

## Donor Data

Detailed giving data along with donor totals and recognitions

# Prospect Research Data

- Prospect Stages
- Ratings
- Assets
- Other Philanthropy
- Media
- Wealth screening from integrations to WealthEngine or iWave

***All the rich data in StratusLIVE 365 can be used in views, charts, and dashboards to surface potential prospects.***

# AI Automations

A sneak peek into AI agents to assist in your efforts

# How AI Agents Transform This Process

**From hunting to asking**

- Fundraisers stop navigating the CRM and start having a conversation with it
- Questions replace clicks: "who should I see this week?" instead of 12 screens of filters

**From fragments to a grounded brief**

- One answer pulls together gifts, relationships, activities, wealth, and prior research
- No more copy/paste from 6 tabs into a Word doc before every meeting

**From generic advice to your donor**

- Recommendations are sourced from your constituent data, not a model's training
- Evidence is shown alongside the recommendation — fundraisers see why, not just what

**From gut calls to best-current hypotheses**

- Ask strategy, next move, and qualification come with named confidence and named uncertainty
- Deterministic scoring replaces "I think this prospect feels like a $25K ask"

**From static steps to adaptive next moves**

- Step-based forms ask the same questions of every prospect
- Agents adapt to what's actually in the record and recommend the single best next move

**From portfolio maintenance to portfolio momentum**

- - Gift officers spend less time preparing and more time in front of donors
- - 45 minutes of prep becomes 4 minutes + a clear plan to walk in with

# Prospect Research Agent

Evidence-backed donor identification, enrichment, and qualification — grounded in deterministic scoring.

**WHAT IT DOES**

Finds the right constituent, gathers history and DonorSearch/WealthEngine/iWave evidence, runs deterministic prospect scoring, and delivers a qualification-focused fundraising brief grounded in source-backed facts — never fabricated.

**WHO IT'S FOR**

- Prospect researchers
- Development officers qualifying new leads
- Campaign teams building pipeline

**CAPABILITIES**

- Identity resolution across Ignite CRM
- DonorSearch/WealthEngine/iWave wealth & philanthropy enrichment
- Deterministic prospect scoring (no hallucinated confidence)
- Web Search Support
- Email Support
- Creates Ignite based Insights

**GUIDED PLAYBOOKS** **2 PLAYBOOKS**

**Qualify This Prospect**

Assess whether a constituent should move into major gift qualification based on evidence and deterministic scoring.

Summary › Recommendation › Evidence › Confidence / Blockers › Next Step › Manual Verification

**Assess Relationship Path**

Identify the strongest visible relationship signals and the best available warm path into a constituent.

Summary › Strongest Signals › Likely Warm Path › Missing Data › Recommended Outreach

# Major Gift Agent

Meeting prep, ask strategy, and cultivation planning for qualified prospects — your frontline fundraiser's co-pilot.

## WHAT IT DOES

Helps fundraisers decide what to do next with qualified prospects. Prepares meeting briefs, recommends ask hypotheses, and proposes cultivation plans grounded in history, relationships, and prior giving — with evidence separated from recommendation.

## WHO IT'S FOR

- Major gift officers
- Frontline fundraisers preparing visits
- Development leaders coaching portfolios

## CAPABILITIES

- CRM-grounded meeting briefs on demand
- Best-current ask hypothesis with named uncertainty
- Staged 30 / 60 / 90-day cultivation plans
- Single-best next-move prioritization

## GUIDED PLAYBOOKS

4 PLAYBOOKS

**Prepare Donor Meeting Brief**
Talking points, motivations, risks, and best next move for an upcoming visit.

Summary › Why It Matters › Motivations › Talking Points › Risks › Next Move

**Recommend Ask Strategy**
Best-current ask hypothesis, framing, and timing — grounded in evidence.

Summary › Ask Hypothesis › Evidence › Framing › Timing › Manual Checks

**Build 90-Day Cultivation Plan**
Concrete 30 / 60 / 90-day sequence a fundraiser can actually execute.

Summary › 30-Day Plan › 60-Day Plan › 90-Day Plan › Risks › Top Priority

**Recommend Next Major Gift Move**
The single best next action for an active prospect, right now.

Summary › Next Move › Why It Wins › Risks / Blockers › What Would Change It
