Session Overview

Every mission-driven organization has supporters whose impact goes far beyond a gift:
They volunteer their time.
They show up to events.
They build community.
They advocate for your cause.

When you understand the **whole journey**, you don't just raise more dollars — you build stronger, more enduring relationships.

Current Landscape

The current landscape –

- Disparate sources of data
  - Excel sheets
  - Other systems
  - Even in Access databases, still!

This is where the StratusLIVE Ignite platform comes in. Ignite is designed to support the **entire constituent journey**, not just a single moment of interaction.

StratusLIVE brings together volunteerism, events, community engagement and more into one integrated experience—so every interaction builds on the last:

- Ignite Volunteer
- Ignite Events
- Ignite Community Groups
- StratusLIVE 365
